My Picture Dictionary

Name _____

My Picture Dictionary

My Picture Dictionary is an easy and practical list dictionary for primary learners. The format is easy to understand and students practice ABC order as they color, cut and glue in the missing pictures. This is an excellent tool for beginning writers who are easily frustrated when they can not spell the words they want to write.

Copy the dictionary pages and bind them together in a three ring binder or folder. Introduce and discuss the purpose of a dictionary and why it is a useful tool for writers. Allow students to explore the pages of their new dictionary. Practice looking up words, using their knowledge of beginning sounds and alphabetical order of the letters.

Pages of the missing dictionary pictures are provided. These pages give students practice with finding the correct letter and page for each picture. The color, cut and glue activity should take 10-15 minutes, so one page at a time is appropriate for primary students' attention span.

The dictionary lists can be used as formative and/or summative assessment. Students are required to locate the correct picture, spell it correctly and provide the page number.

A complete list of words and categories is provided for teacher reference.
