

# EVA PRO

## Characteristics

Stackable sunlounger made of polypropylene (PP)

Made without fiberglass

Designed for the professionals, beach, hotels & resorts, private clubs and others facilities.

Its ergonomic design allows for a safe and comfortable rest.

Can be set into 5 positions with an horizontal frame.

Anti-trapping system in the back rest to avoid accidents.

Built in wheels that facilitate the transport.

Fabric easy to replace.

Auto-tensed system using an elastic cord that facilitates the fabric recovery.

High resistance frame. Support statics load of 180kg.

5 years warranty for the frame.

2 years warranty for the fabric.

## Materials

**FRAME:** Reinforced mineral filled polypropylene (PP) composed by two independent resin halves. Their joining is reinforced with an inner galvanized metal tube. Anti-UV treatment.

Weight: 12.8 Kg.

**Elastic cord:** Made of a latex core (69%) coated with polypropylene (31%). 7.2 mm diameter, 3.87 g/m<sup>3</sup> density. Resistance to breakage: 130 kg. Finished with an injected plastic end.

Weight: 0.15 Kg.

**Wheels:** Made of Polyamide (PA).

## Fabric

Breathable fabric constructed with double weft and double warp, 1.25 mm thick and 870 g/m<sup>2</sup> density.

Made of a continuous polyester thread core (30%) coated with PVC (70%).

Light resistance index 8.

Long-lasting anti-microbial protection, avoiding bad smells and stains caused by moisture.

Finished with a heat-setting process which prevents the fabric from tearing.

Made by means of thermal welding, to prevent it from tearing.

The eyelets are made of stainless steel.

Fire retardant as per standard EN-1021-2:2015.

Weight: 1.35kg.

## Security

Anti-trapping system in the back rest to avoid accidents.

Back rest design to avoid sudden movements during normal use..

Safety and resistance test EN 581-1/2: 2017, EN-581-2:2017 and American Standard ASTM F1988-99 approved and certified by national and international laboratory experts: ENAC and TÜV.

## Measures

### Product

A	73 cm
B	88 cm
C	198 cm
D	37 cm
Weight	14,3 kg

### Packaging

Type:	Sin Palet	Palet
Units:	10	10
Measures:	198x74x140cm.	200x78x153cm
Weight:	143 Kg	158 Kg
Volume:	2,05m <sup>3</sup>	2,38m <sup>3</sup>

### Loading capacities

Trailer mega:	520 u.	7.436 Kg
20' Container:	160 u.	2.288 Kg
40' Container:	330 u.	4.719 Kg
40' HC Container:	400 u.	5.720 Kg

## Maintenance plan

**Weekly:** Visual check of the general condition of the sunlounger, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

**Monthly:** Check fabric tension. Check the structural strength and stability. Check the condition of wheels and strings.

**Yearly:** Check the condition of the fabric and ensure it is correctly tensed. Check the backrest and adjuster are working correctly. Replace any worn or damaged parts.

**Wintering and storage:** Clean with soapy water and a soft cloth. Remove damp stains, sand and seawater. Store horizontally in a dry place in stacks of 10 units.

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the sunlounger is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the sunlounger until maintenance is completed.
- Consult the maintenance instructions.
- Do not use aggressive chemicals to clean the sunlounger. Always use products with a neutral pH.
- Use a soft cloth to clean the sunlounger.
