Materials

Frame: Manufactured using 6063-20 hardened aluminium with a variable thickness from 2 to 4 mm.

Screws: Stainless steel AISI 304 that prevents the corrosion in marine environments.

Paintwork: Epoxy paint coating with anti-rust treatment and resistant to UV rays. Paintwork accordingly to the international standards specifications of Qualicoat, complies with the ISO 2409 and ISO 2360 about gloss retention and colour stability.

Elastic cord: Made of a latex core (69%) coated with polypropylene (31%). 7.2mm diameter, 3.87 g/m³ density. Resistant to breakage: 130 kg. Finished with an injected plastic end.

Accessories: Polypropylene (PP) caps, wheels and support struts with a UV protection.

Fabric

Breathable fabric constructed with double weft and double warp, 1.25 mm thick and 870 g/m² density.

Made of a continuous polyester thread core (30%) coated with PVC (70%).

Light resistance index 8.

Long-lasting anti-microbial protection, avoiding bad smells and stains caused by moisture.

Finished with a heat-setting process which prevents the fabric from tearing.

Made by means of thermal welding, to prevent it from tearing.

The eyelets are made of stainless steel.

Fire retardant as per standard EN-1021-2:2015.

Security

Structure design without rolling roll if the user feels at the ends.

Self-locking system for the backrest positions to prevent accidents.

Measures

Product

A	68 cm
B	82 cm
C	194 cm
D	36 cm
Weight	9.4 kg

Packaging

Type:	Palet
Units:	14
Measures:	195x71x173cm.
Weight	159 kg
Volume:	2,39m ³

Loading capacity

Trailer mega:	520 u.	4.880 Kg
20' Container:	160 u.	1.504 Kg
40' Container:	330 u.	3.102 Kg
40' HC Container:	440 u.	4.136 Kg

Maintenance plan

Weekly: Visual check of the general condition of the sunlounger, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

Monthly: Check that the aluminium frame does not have scratches or deep scratches. Check the condition of the fabric and ensure it is correctly tensed. Verify the screw conditions. Check the conditions of the wheels, caps, and support struts.

Yearly: Check the condition of the fabric and ensure it is correctly tensed. Check the backrest and adjuster are working correctly. Replace any worn or damaged parts.

Wintering and storage: Clean with soapy water and a soft cloth. Remove damp stains, sand and seawater. Store horizontally in a dry place in stacks of 10 units.

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the sunlounger is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the sunlounger until maintenance is completed.
- Consult the maintenance instructions.
- Do not use aggressive chemicals to clean the sunlounger. Always use products with a neutral pH.
- Use a soft cloth to clean the sunlounger.
