

2019-2020 Chevrolet & GMC Silverado/Sierra Light Duty Crew Cab *and* 2020 Silverado/Sierra Heavy Duty Crew Cab *Underseat Storage LOCKBOX*

Fits DU-HA Part Number
10410

Installation Instructions:

1 Install the Du-ha Lockbox by following the instructions included with the divider kit. Note: The factory knob for holding the jack tools in place is too large to fit inside the Lockbox so you will need to remove the current knob from the jack tools holder. Press on the metal tab on the back side so you can slide the knob out of the metal bracket. Use the provided knob and insert it into the same hole of the jack tools bracket to secure the jack tools in the factory location. You will also need to flip the bracket around on the jack tools bag so the end of the tool bag will point downward so they will fit inside the Lockbox.

2 To lock the Lockbox insert the key into the lock with the teeth on the key pointing to the outside of the vehicle. The middle key should point towards the passenger side or truck. Once the key is inserted turn the key clockwise to lock the driver's side and counter-clockwise to lock the passenger's side and middle. When locked the teeth on the key should be pointing downward.

3 To Un-lock the Lockbox insert the key into the lock with the teeth on the key pointing downward. Turn the key counter-clockwise to unlock the driver's side and clockwise to unlock the passenger's side and middle.

Safety Instructions:

Warning: Make sure the DU-HA is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA. For further instructions refer to truck owner's manual or contact DU-HA, Inc.
