made in France

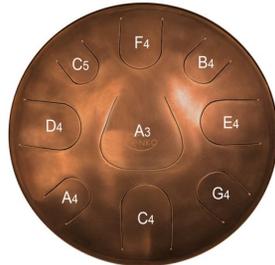

An original creation, 100% made in France

The Zenko is a new innovative melodic percussion drum made out of a specific stainless steel alloy. Zenko, belongs to the "Steel tongue drums" family, invented in the early XXI^e century. Handcrafted in the Metal Sounds' workshops. The french company is also known for manufacturing its own handpan: the Spacedrum®. The Zenko spreads its sounds like smooth and soft waves. Its high harmonics content comes from a perfect tuning that is also reliable along the years. It will produce some different sounds depending on the kind of play: by hands or with the sticks
