VENDÔME COLLECTION

FALL/WINTER 2019

Inspired by Paris' Place Vendôme, the legendary playground of international style setters and luminaries, Tyler Ellis' Fall 2019 collection embodies the timeless soul of Parisian style with a modern twist. From iconic silhouettes covered in luscious black alligator to electric blue exotics and leopard calf hair, these are pieces that transcend effortlessly from day to night. Classic black leather is brought to life with whimsical fringe accents, modest box shapes are elevated with custom metal horn handles and shimmery Swarovski crystals embellish the sides of clutches. Just like the City of Lights, these handbags are of the moment yet will remain relevant for a lifetime

ABOUT THE DESIGNER

Tyler Ellis, the daughter of revered fashion designer Perry Ellis, channels her fascination for traveling into an endless current of inspiration. Her eponymous handbag line is defined by an array of luxe materials and intricate details that embody her worldly palette. Brought to life in a father/son owned and operated atelier outside of Florence, Italy, Tyler Ellis handbags represent an ardent commitment to couture and quality craftsmanship that has earned a cult following. The designs look equally at home on the red carpet as well as in everyday life and are carried by influential women worldwide.
