

HAPPY HALLOWEEN!

SHOW OFF YOUR HORSEY STYLE WITH OUR PUMPKIN STENCILS!

DAPPLEBAY
CLOTHING CO.

STEP 1

Print out your pattern. You can size it (change the scaling) according to your pumpkin.

STEP 2

Get out your pumpkin carving kit. Remove the pumpkin guts! OR - just clean your pumpkin if you plan to draw the pattern vs carve it.

STEP 3

Cut around the pattern and tape it onto your pumpkin.

STEP 4

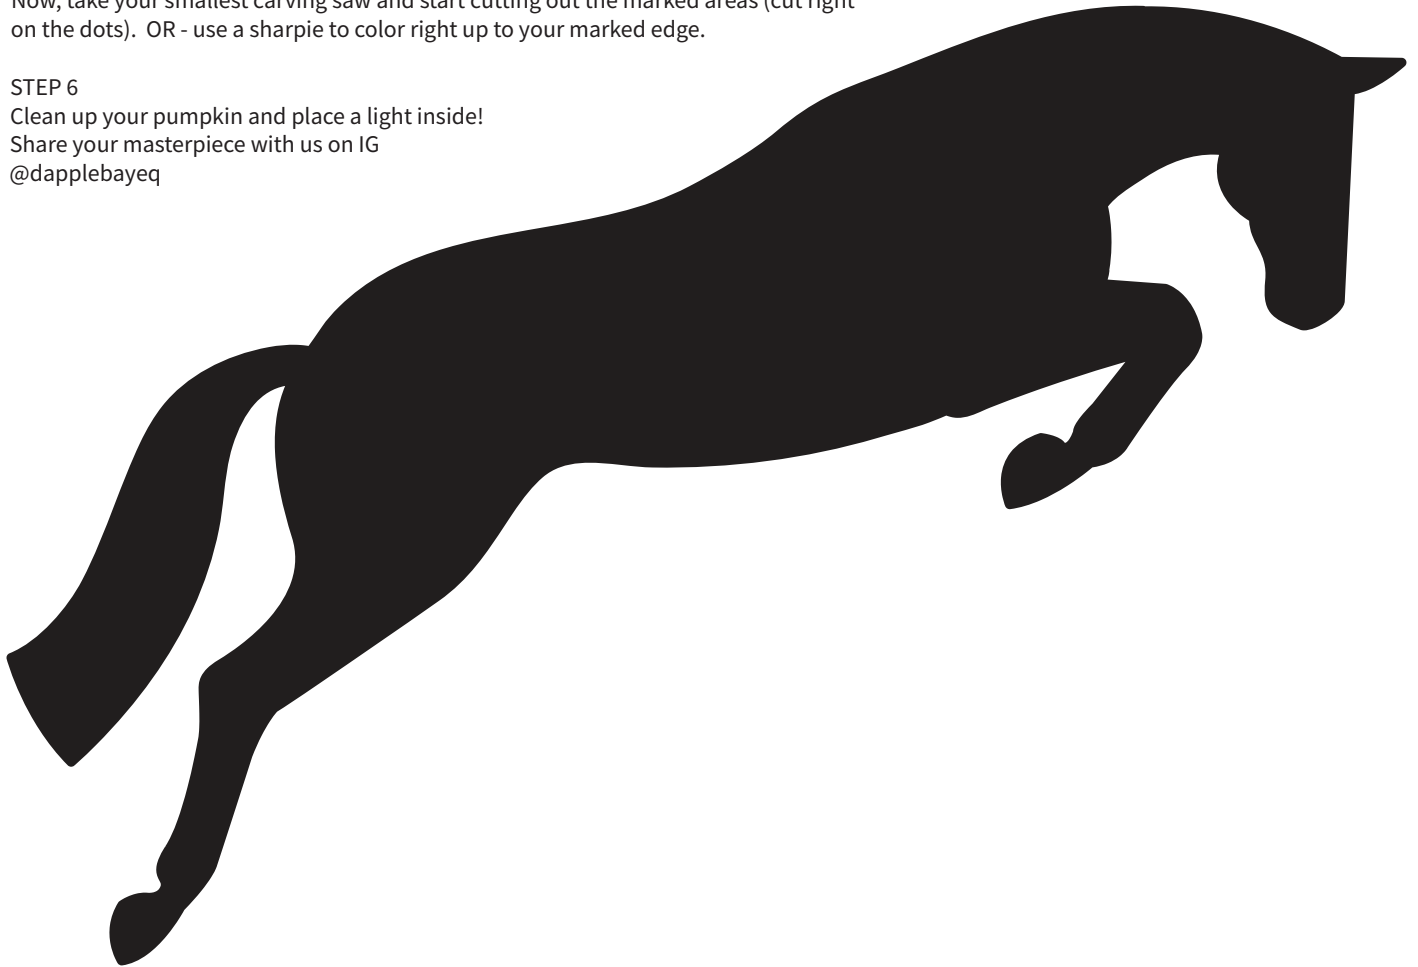

If you are carving the pumpkin, mark your pattern edge using a push pin or the "pokey radial tool". If drawing it, use a ball point pen to mark the edge. Press HARD - you want to create an indent in the pumpkin. Then pull off the pattern.

STEP 5

Now, take your smallest carving saw and start cutting out the marked areas (cut right on the dots). OR - use a sharpie to color right up to your marked edge.

STEP 6

Clean up your pumpkin and place a light inside!
Share your masterpiece with us on IG
