CONSUMER INFORMATION

Please read the consumer information that comes with TRX2[®] Hair Revitalizing Foam (hereinafter referred to as TRX2[®] Foam) before you start using it.

If you have questions regarding application of this product, contact us at support@trx2.com or +44 800 808 5251. For more information on TRX2[®] Products or to reorder visit our homepage: www.trx2.com.

What is TRX2[®] Foam?

TRX2[®] Hair Revitalizing Foam with TRX2[®] active ingredients is a topical natural-based aerosol containing a proprietary complex of Carnipure™ Tartrate (L-Carnitine Tartrate), Potassium, BCAA, Niacin and other essential nutrients, produced under the highest quality control. TRX2[®] Foam is used to revitalize hair follicles, and nourish thinning hair.

Who may use TRX2[®] Foam?

TRX2[®] Foam is suitable for use by men and women. This natural-based solution is specifically designed to revitalize hair follicles and nourish thinning hair.

How does TRX2[®] Foam work?

People who experience thinning hair often demonstrate a decline in potassium channel activity. These pore forming proteins, which reside in the cell membranes, are responsible for the correct transport of potassium ions over the membranes, thus maintaining the membrane potential and a normal uptake of nutrients by the hair follicle. TRX2[®] Foam is based on the same effective formula as the TRX2[®] Molecular Food Supplement for Hair. This means that the same active ingredients are helping to strengthen the hair by ensuring a sufficient nutrient supply to the hair root. This can be achieved by the reactivation of dysfunctional potassium channels, thereby revitalising and strengthening the hair follicle at the molecular level. More detailed information about the science behind the TRX2[®] formula can be found at www.trx2.com/the-science.

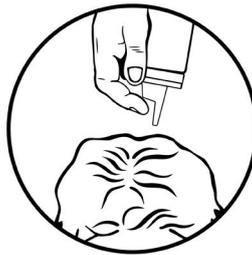

How should I apply TRX2[®] Foam?

When using TRX2[®] Foam for the first time, remove the cap. Shake well each time before use. Part your dry or towel dry hair in the area of thinning hair. Push the dispenser button down. Dispense the required amount of TRX2[®] Foam while holding the can straight upside down. Apply directly to the scalp, or distribute onto fingers, and massage into your scalp. Wash your hands well afterwards. Blow-dry or style your hair only after TRX2[®] Foam is completely absorbed into your scalp. Allow enough time to dry your hair before going to bed. Allow the product to stay on your scalp for a few hours before washing your hair.

Apply TRX2[®] Foam twice a day, in the morning and in the evening. To ensure long-term results, use TRX2[®] Foam consistently as part of your daily routine, and according to the instructions.

PART THE HAIR IN THE THINNING AREA

HOLD CAN STRAIT UPSIDE DOWN. APPLY DIRECTLY TO THE SCALP

MASSAGE WITH YOUR FINGERS

WASH HANDS AFTERWARDS

What should I do if I forgot to apply TRX2[®] Foam?

Use the usual amount of TRX2[®] Foam the next morning or evening.

Precautions:

Extremely flammable aerosol. Pressurized container: may burst if heated. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not smoke while applying. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Keep out of reach of children. Dispose of contents/container in accordance with national regulations.

In case of contact with eyes, rinse immediately with cool water.

Does TRX2[®] Foam contain any harmful ingredients?

TRX2[®] Foam is dermatologically tested and doesn't contain any harmful ingredients. It is free from synthetic fragrances and dyes. Active ingredients of TRX2[®] Foam (see label) are natural-based. A small dosage of a mild preservative is used to prevent product spoilage.

Ingredients:

Aqua, Butane, Carnitine Tartrate, Propanediol, Propane, Biotin, Panthenol, Leucine, Isoleucine, Valine, Niacin, PEG-40 Hydrogenated Castor Oil, Polyquaternium-16, Phenoxyethanol, Isobutane, Dimethyl Sulfone, Trideceth-9, Zinc Citrate, Cetareth-25, Propylene Glycol, Cocamidopropyl Betaine, Ethylhexylglycerin, Potassium Chloride.

Dermatologically tested.
Free from synthetic fragrances and dyes.

Carnipure[®] and the Carnipure logo are Lonza trademarks

Best before end: see bottom of can.

Specifications: 75 ml.
