

VOLAH TRANSMISSIONS SERIES ONE

This is a free chapter provided by LightPulsations.com

OPENING

What is the purpose of your life in this Dimension?

The religionist suggests that you are here to suffer for the sins of your ancestors, and unless you atone for these sins you are denied eternal bliss. However, all sin and suffering experienced in this dimension are self-inflicted, and life's purpose will not become your reality until your body and its consciousness are prepared to manifest that purpose.

These Transmissions reveal your true purpose in life, and this purpose is completely different from what you presently believe it to be. Your experiences in this world are based on the information derived from your outer senses, and depend on your ability to consciously align your sensual experiences with those of your Inner Essence.

Your body's outer senses are receptors for the information and experiences that make up your daily existence. Your outer sense receptors consist of the five known senses, which are: Seeing; Hearing; Smelling; Taste; and Touch, plus six other senses that are little developed in most people. These additional senses are: Feeling; Intuition; Communication; Inner Understanding; Clear Sight; and Consciousness. Most people have problems utilizing the five basic senses let alone their under-developed receptors.

Consciousness and awareness allow you to experience Love and Wisdom which, in turn, opens within you the creative impulse of Self and the consciousness that pervades the Universe.

Zadore told us that Adasha is Self Consciousness expressed by the Inner Being of the Earth, and in order to become conscious of the Earth's needs, you must develop and utilize all your outer senses and receptors. The Consciousness that pervades the Universe has been referred to as the Macrocosm, and the consciousness that pervades the Earth and humanity, the Microcosm, the miniature Universe, and is often expressed by the statement, "As above, so below".

In the Astral Illusion, the Earth is not considered as being a part of the microcosm; rather the microcosmic relationship is linked to the human being, which is seen as a replica of the Universe. Filled with a sense of self-

importance engendered by the Astral Illusion, humanity wrongly places itself above the Earth's consciousness, believing that only humanity has the power of creation and, eventually, the control of life and death in this Dimension.

Humanity has accepted this false belief that constitutes the Illusion, one that prevents it from experiencing the truth of its Being. Because of this ignorance and darkness, humanity is unable to understand and attune with the greater Nature of the Earth.

This separation from Life and the source of Nature produces a state of disease and disharmony in human consciousness, and unless there is a return to health and harmony on all levels of existence, Life and Light cannot be experienced and expressed by humanity. A healthy state is necessary for the continuation of physical existence, and this is the first step a Trustee takes to attain Consciousness and Self-awareness.

The six higher senses only unfold when there is a harmonious relationship between the body and the Earth, human nature with Mother Nature. When you begin to live in the Moment from Self-consciousness, you experience a state of harmony with the Creative Impulse of Life.

If you are a friend of Adasha you need to integrate the higher energies of your Self and Essence with your body's true Personality, and to do this the material part of your body must vibrate at the highest frequency possible at the physical level.

Zadore inspires these Transmissions, and the high level of information given will expand your awareness with the Light of the Sun and Universe. The only authority is Truth revealed by Nature, which is the wisdom that exists within Creation. As such, we do not weld minds into a new system, but help every individual rise above ignorance, superstition, fear and Illusion.

With this in view we have developed a systematic study of Self, so that you will understand that your existence is the creative spirit of the Universe, as well as the higher realms of Light beyond this Dimension.

Living from Self you cease to live in the ignorance that creates suffering and distorts your daily life. Everyone, to a greater or lesser extent, has the urge to find the reality of Self, and it is only the degree of intensity and striving that determines the extent of your fulfilment.

The brain is the largest gland in the body, and joins the finite with the infinite. Once you develop the finer activity of the cellular structures of the brain, you are consciously united with the force of Life, which is the inflowing and out flowing Light consciousness. The inflowing Light consciousness is experienced by the heightened function of the eleven sense receptors mentioned above which, in turn, express in the Dimension the out flowing consciousness of Self.

When you begin to live in harmony with Nature and the Earth, you become one in consciousness with your creative Self Essence which flows into the Third-dimension through all the Stars that give Light and consciousness to the Universe. The average human being is like a piece of driftwood on the ocean, with no power to change her or his existence and following routines and suffering stresses and pressures that overwhelm them. Only through effort will you attain the freedom of Being, the long sought-after attainment of oneness with Self, which leads to eternal life.

Once you are grounded in the knowledge of the laws and principles that govern life, you will step out of the Astral Illusion. These Transmissions are the practical demonstration of right living, to be used every day in a rewarding manner. Every human being must awaken his or her true Personality, the consciousness of Self that leads to the realization of Life's endless manifestation. There is no end to matter, Light or human achievement, because humanity is the incarnation of Self's creative impulse. You can only reach a higher level of Light and Consciousness on this Dimension by living in an Earth-body. All work in consciousness has to be completed now, because there is no afterlife that avails you of any further expansion of consciousness.

To all our Trustees of VOLAH (The Vortex of Light and Healing), we welcome your comments and questions regarding the content of these Transmissions. Our aim is to restore Light in the world.

Jon Whistler.
