

GEOTRAK® SYSTEM

ECO-FRIENDLY WALLS AND CEILINGS

A photograph of a modern office interior. The room features a ceiling with recessed lighting and a wall with vertical wood slats. In the background, there is a conference table with white chairs and a white pendant light. The overall aesthetic is clean and professional.

THE ONLY
SOLUTION
FOR QUALITY
SOUND &
SUSTAINABILITY

GEO TRAK®

PVC-FREE STRETCH WALL AND CEILING TRACK

What is **GeoTRAK®**?

GeoTRAK® is an acoustic solution for a variety of interior applications.

GeoTRAK® is the PVC-Free alternative with the same design, dimensions, strength, fit, finish and ease of installation as our original **FabriTRAK®** profiles.

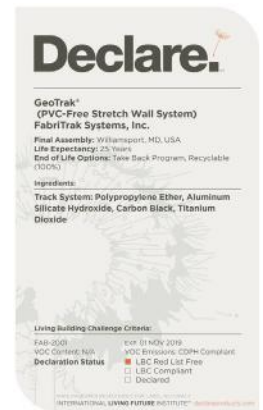

GeoTRAK® is used when there is a need for a PVC-Free interior environment that excludes the application of our traditional composition profiles for fabric* covered wall and ceiling applications.

GeoTRAK® is:

- 100% PVC-Free
- Class A Fire Rated
- 100% Recyclable
- Tested to virtually no VOC emissions

Designers Suggest:

- ✔ **Environmentally Friendly**
- ✔ **LEED V4 interiors**
- ✔ **Living Building Challenge**
- ✔ **Specialty interiors**

GeoTRAK® Technical Data

PROFILES	1 INCH PROFILES	1 GSFE.10, 1 GSFE.5, 1 GSE.10, 1 GSJT.10
	1/2 INCH PROFILES	1/2 GSFE, 1/2 GSE, 1/2 GSJT
COLOR		Black
COMPOSITION		100% PVC-FREE, RED LIST FREE of Harmful Chemicals
ACOUSTICAL TESTING**		ASTM C 423: NRC .80 (Composite System Value)
FIRE TESTING**		ASTM E84 Class A (Composite System Test)

* Including leather, felt, vinyl and silk textures.

** Test values include GeoTRAK®, TerraCORE Poly™, and fabric. ASTM tests available on www.fabritrak.com.

CERTIFIED BY:

TERRACORE POLY™

POLYESTER ACOUSTICAL TILES AND INFILL

What is TerraCORE Poly™?

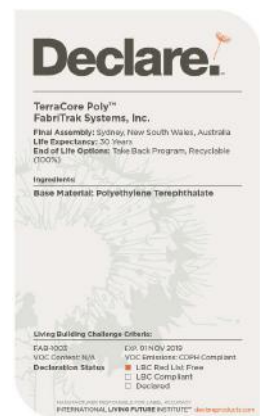

TerraCORE Poly™ is an acoustic product manufactured with a special blend of very low denier polyester fibers which enhance acoustical performance. **TerraCORE Poly™** is an environmentally friendly substitution for fiberglass infill or as a stand-alone solution for ceiling tiles or walls. It is available in both standard and high densities. **TerraCORE Poly™** provides a safe environmental solution without limiting sound control.

Sustainability:

- Contains 80% post-manufacturing recycled material
- No added chemicals or binders
- Manufactured without the use of water
- Free of all Volatile Organic Compounds (VOC)
- No ozone depleting gases in manufacturing
- 100% recyclable
- Safe, non-irritant, non-toxic and non-allergenic

Designers Suggest:

- ✓ **Environmentally Friendly**
- ✓ **LEED V4 interiors**
- ✓ **Living Building Challenge**
- ✓ **Specialty interiors**
