Specialized Care Co, Inc.

Open Wide® Mouth Rest

Comfortably Keeps Mouth Open

The Open Wide® Mouth Rest is helpful for those who lack the cooperation or motor control to keep the mouth open. It is made from a special foam with a rigid stable core. It is sturdy enough to resist biting pressure, but has enough "give" to be comfortable for the person receiving care. The mouth rest has a long handle for safe, easy control. Ask your dentist, hygienist or medical professional to show you how to use the mouth rest.

U.S. Patent No. 5,735,691

Thick

Regular

The Thick Mouth Rest has 40% more foam to for those who bite down harder.

Surround® Toothbrush

Cleans All Surfaces of the Teeth at the Same Time

Latex-Free*

The Surround® Toothbrush is a great choice for people with low tolerance for daily toothbrushing. It has three bristle pads to clean all surfaces of the teeth at the same time. Whether the user is brushing her own teeth or someone else is doing the brushing, the Surround Toothbrush can make the process easier because more tooth surface can be cleaned with each stroke.

The toothbrush is covered with a rubber-like material to help protect the mouth if the person moves suddenly or falls while using the brush. Soft, end-rounded bristles and compact head make brushing safe and comfortable.

* Not made with natural rubber latex

Surround® Toddler Toothbrush

Helps Youngsters Brush Better Independently

Latex-Free*

The Surround® Toddler Toothbrush is designed for children aged 6 and younger, and has 3 bristle pads arranged at the correct angles for proper cleaning of teeth and gums. When your toddler begins to brush independently, he or she can accomplish more with each brush stroke because the bristles are in contact with the front, back and biting surfaces all at the same time.

The bristles hug the teeth, and that helps the youngster get the "feel" of where to brush. The handle is chunky to make gripping easier for young hands. And the smiley face design makes brushing more fun.

* Not made with natural rubber latex

Oral Care Kits

Helpful Kits for At-Home Caregivers

Oral Care Kits contain just the right starter products to assist caregivers when they need to brush the teeth of another person. Open Wide® Mouth Rests are useful when the cared-for person has difficulty keeping their mouth open for brushing. Surround® Toothbrushes clean all surfaces of the teeth at the same time so more is accomplished with each stroke. The DVD *"How to Brush the Teeth of Another Person"* gives caregivers necessary information to confidently provide oral hygiene.
