

Discover the Doulton difference.

Grade of Fitter Candle

- Biotect Ultra® ■ Fluoride®
- Ultracarb® ■ Elite 4502®
- Ultra Sterasyl® ■ Ultra Fluoride®

Tested and Certified by NSF International against NSF/ANSI Standards 42 & 53 in models HIP Biotect Ultra Inline and Ecofast Biotect Ultra Inline for the reduction of Chlorine (taste and odour), Cysts, Lead, Particulates and Turbidity, mercury & cadmium.

ON

Countertop Water Filter System

Fixed on the kitchen counter next to sink, counter-top filters are very popular with people who want very easy access to their water filters.

IN

Undercounter Water Filter System

Designed to be fitted to the mains cold water pipe underneath the kitchen counter and are highly robust as they are under water pressure all the time.

DCP

- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ BTU Biotect Ultra M12

HIP

- ✓ Filter particles, pathogenic bacteria, cysts, etc.
- ✓ Anti-bacterial Growth
- ✓ Removes Chlorine, Organics (Improve taste & odour)
- ✓ Lead removal

Compatible candles ■ UCC Ultracarb

DCP2

- ✓ Advanced Fluoride Removal
- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ Fluoride 9B04
■ BTU Biotect Ultra M12

QT ECOFAST

- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ BTU Biotect Ultra M12

DBS

- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ BTU Biotect Ultra M12

ROYAL DOULTON ELITE

- ✓ 5 layers filtration
- ✓ 3800L Capacity with anti-scale protection
- ✓ Removes microparticles down to 0.2microns
- ✓ 99.99% Bacteria Removal & Chlorine Reduction

Compatible candles ■ ELITE 4502 M14 Short Thread

* Pillar Tap with LED indicator

DCS

- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ BTU Biotect Ultra M12

HIS

- ✓ Filter particles, pathogenic bacteria, cysts, etc.
- ✓ Anti-bacterial Growth
- ✓ Removes Chlorine, Organics (Improve taste & odour)
- ✓ Lead removal

Compatible candles ■ UCC Ultracarb

SS DRINKING WATER GRAVITY FILTER

- ✓ No Reliable Pressurised Water Supply
- ✓ Proven Protection Against Water-Borne Disease
- ✓ Ideal For Camping & Holiday Cottage
- ✓ Outdoor Recreation & Emergency Preparedness
- ✓ Compact & Portable

Compatible candles ■ Ultra Sterasyl or ■ Ultra Fluoride

DIS

- ✓ Sediment, Rust, Herbicides, Cyst Removal
- ✓ Anti-bacterial Growth
- ✓ Chlorine Reduction (Improve taste & odour)
- ✓ Heavy Metals, Lead, Mercury, Cadmium Reduction

Compatible candles ■ BTU Biotect Ultra M12

*The flow rate will be dependent upon the water quality, grade of candle and mains water pressure.

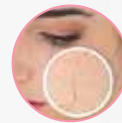

Beauty & Skin Care dechlorination

Water Purifier System

Let the skin return to delicate and smooth

In recent years, the effect of water pollution are gradually become serious. Although most people begin to realize that drinking water needs to be filtered, they still ignore the damage to the human body caused by residual chlorine, organic matter, and debris in the living water.

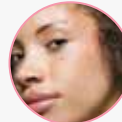

Residual chlorine

Bleaching the skin, drying and peeling off the skin layer, and even causing symptoms such as psoriasis and allergy

Impurities

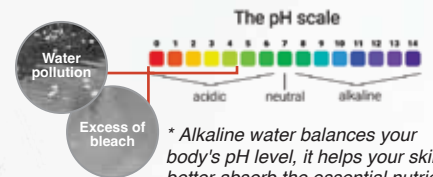

Clogged pores, causing skin irritation, enlarges pores and dull skin

Heavy Metals

In contact with skin, it is easy to form allergies and stains

Colours: ○ ●

* Alkaline water balances your body's pH level, it helps your skin better absorb the essential nutrients it needs to stay hydrated.

Anti-Bacterial

Did you know?

Our ceramic filters are so earth-friendly that when you replace one after around 6-12 months, you can even compost the old one. The filter's natural earth help regulate your compost's water absorption.
