

8. If unsuccessful click 'How to make light blink rapidly' and follow the steps.

If still unsuccessful remove the battery and wait 20 seconds. Replace the battery and follow the previous connection setup instructions.

Multiple Smart Devices

We advise you connect one smart device at a time via steps above.

To link to other BrilliantSmart devices such as sensors, cameras, etc – go to www.brilliantlighting.com.au and follow the how to manual instructions.

BrilliantSmart App Assistance

For BrilliantSmart app assistance click Profile then FAQ. This should answer any queries you have.

If this doesn't solve your problem then click 'Customer Service', select 'New' and click on the device then type in your query.

You should receive a response within 24 hours.

For further troubleshooting or to connect via AP Mode go to www.brilliantlighting.com.au.

Main Functions

1. Status – door/window is 'CLOSED' or 'OPEN'

Depending on WiFi connection the 'OPEN' or 'CLOSED' notification will vary within ± 5-10 second delay.

LED flashes on the sensor to indicate change of status.

2. Alarm recording history

3. Select NOTICE what notification you would like to receive. You can select door closed 'ON' or 'OFF' and door opened 'ON' or 'OFF'.

You can select battery status 'ON' or 'OFF'.

Warranty

Brilliant Lighting warrants this product against defects in manufacture and workmanship for a period of 12 months from date of purchase. Warranty does not include damage or loss arising from incorrect installation, operation or maintenance of this product, damage caused through modification, or incorrect installation.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure.

Any claim under this warranty must be made within 12 months of the date of purchase of the product.

Refer to our website brilliantlighting.com.au for terms and conditions and warranty claims.

Installation

Important Safety Issues

Be aware of the height of your installation, if applicable. Refer to 'Working on heights' guide from your local Worksafe Authorities.

This product is NOT suitable for damp or explosive environments. Modification of this product will void any warranty. Indoor use only.

Safety Class

Class III Construction

Installation

- Unpack the fitting and check all content present.
- NOTE: the product is designed to be installed on doors or windows.
- The magnet should be installed on the moving part of the door/window and the sensor on the fixed part. **Note** that the distance between magnet and sensor must be **less than 5mm** when the door/window is closed.
- Remove cover of the sensor then remove battery
- **Install sensor base** on the fixed part of the door/window using double sided tape and/or screws provided. Ensure the side with groove on the base will face towards the magnet.
- Install battery, refer to the correct polarity and replace cover.
- **Ensure the side of the sensor cover marked with centre line will face the magnet.**
- Separate the magnet base from the cover via small flat head screwdriver. **Install magnet** using double sided tape and/or screws. The side of the magnet marked with centre line should face the sensor.
- **Note:** The distance between magnet and sensor must be **less than 5mm**.

Connect to your WiFi

Ensure your mobile phone is connected to your 2.4GHz WiFi network.

Your mobile phone and your smart device needs to be within good signal strength range of your WiFi router.

Download the BrilliantSmart App

Please download the free BrilliantSmart app from the App store or Google Play store, or scan the QR code below.

Register the BrilliantSmart App

Open the BrilliantSmart app.

For new users, register a new account or if existing user, login with your user name and password.

Configure your BrilliantSmart App

Setting up your Home

You can setup multiple homes or locations. Click 'Add Home' button. Or click on 'Home' top left if you are adding or modifying details then 'Home Management' to setup your home(s), add or rename rooms and share devices.

Add your Smart Device to your App

1. Remove the cover from the sensor base by depressing the notch with a small screwdriver.
2. Open the BrilliantSmart App, tap 'Add Device' (if empty room) or '+' to add your smart dimming module.
3. Select 'Wi-Fi Connector' in the list of devices.
4. Remove the tab so battery is connected. The red LED light indicator should start blinking rapidly (2 times per second).

If it's blinking rapidly then press 'Confirm indicator rapidly blink'.

5. Enter your WiFi password.

Connection will now begin.

6. Once connected you'll get a menu 'Adding device succeeded'.

Select the room the device is located and and press 'Done'.

You can click on the pen to change the device name.

7. The smart device can now be controlled by the BrilliantSmart app.
