

### Optional Accessories

Anti-Static Duct, Duct Carry Bags.

# AFI75XX

3

YEAR WARRANTY

The air driven AFI75XX (12"/300mm) is engineered specifically for hazardous work environments. It is suitable where explosive atmospheric conditions make intrinsically safe equipment a requirement. The ABS anti-static housing is corrosion and chemical resistant.

### ATEX certification

Safety of your workers is a priority. This unit is certified for use in hazardous atmospheres.

### Virtually indestructible

These units are made extra tough to work alongside your team in harsh areas. They are built with a durable housing designed to withstand industrial workspace environments. ABS anti-static casing is flame retardant and chemical resistant.

### Duct adapters and cord

This unit includes two integrated duct adapters and a static grounding cord.
