## Revo Adjustable Spot Lights Installation Instructions

Product Specifications		
Model No.	HV3684T-BLK	HV3684T-WHT
Name	Revo	
Material	Aluminium	
Colour	Black	White
IP Rating	IP65	
Input Voltage	240v AC	
Lamp Base	Built in LED	
Lamp Wattage	2x 9w	
Colour Temp	TRI Colour - 3000k, 4000k, 5500k	
Lumens	2X 810lm, 2X 850lm, 2X 900lm	
CRI	> 80	
Wiring	Parallel	
Dimmable	No	
Warranty	2 Years Replacement*	

#### **Important Safety Issues:**

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty
- Havit Lighting does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- When installing low voltage fittings, Voltage to fitting must be within +or- 5% of voltage required, if not within this allowance warranty will be voided.
- Aluminium and 304SS fittings must not be installed within 2km of any salt water environments.
- When installing copper fittings, gloves must be worn to avoid any oils transferring to fitting.
- All 316 & 304 stainless steel fittings must have regular cleaning maintenance to avoid any tea staining from forming on fitting.
  - (Warranty does not cover Tea Staining)
- All o-rings and seals must be in place correctly to maintain warranty
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

# **Mounting Base Diagram** 14 - 39 123

#### **Steps for Installation:**

- Make sure that the electrical circuit is free of voltage (master switch off)
- 2 Loosen allen screws on side of fitting
- Remove base plate from fitting and attach base plate in desired location 3.
- 4. Connect the cable - use wire with earth; connect the earth first, then live and neutral wire
- Fitting is preset to 3000k, to change slide switch to desired colour temperature 5.
- Reattach fitting to baseplate making sure screws are tight to avoid water penetration.
- 7. Apply silicon around edge of fitting to prevent any water from getting inside to electrical connections.
- 8. To adjust Sensor, slide cover to the left or right to show settings
- 9. Adjust time, use a flat head scredriver and rotate postion to the right up to a maximum of 12 mins
- Adjust Lux settings, use a flathead screwdriver and rotate position to the right for night to only have light fitting turn on at night.
- 11. Adjust fitting gently to where you want fitting pointed, Make sure to stop turning when fitting stops otherwise fitting may break if turned too far.
- All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.
