Creative Workshops

Silver Ring Making with Silverkupe

During this exciting workshop you will be introduced to the basics of traditional jewellery making techniques, where you will learn how to give texture and form a piece of sterling silver sheet and turn this into a shiny wrap ring. As well as decorating the top of the ring you will also be able to add your initials or other little decorations to the inside of the ring as well to make it unique and one of a kind.

Emine Thomsson is a contemporary jewellery designer and maker. She specialises in limited collections of handmade jewellery in silver and gold with bold designs and colours.

With a background in design and 3D modelling and teaching these skills, she also provides various jewellery making workshops where she shares love of making and jewellery with others.
