The BookLife Readers begin with the very basics of phonetically decodable reading. Starting with the earliest step of CVC words – words comprising a consonant, a vowel and a consonant – and building on this combination slowly, the reader follows a prescribed format taken directly from the recognised Letters and Sounds educational document.

By aligning our books with Letters and Sounds, we offer our readers a consistent approach to learning, whether at home or in the classroom. Books levelled as ‘a’ are an introduction to the band. Readers can advance to ‘b’ where graphemes are consolidated and further graphemes are introduced. The illustrations guide the reader, helping to deliver reading progression through the scheme in a colourful and exciting way. As a reader moves through the book band levels, the page numbers, level of repetition and sentence structure complexity all advance at a rate which encourages development without halting enjoyment.

INTRO TO PHASE 5

22 'INTRO' TITLES AVAILABLE NOW

BookLife Readers have been specifically created in line with the way that children are taught to read in schools and by working with teachers we know that the leap up to Phase 5 is one of the biggest hurdles developing readers face. This brand-new range of 'Intro' books has been created specifically to help developing readers bridge this gap.

In reaction to all the requests we received directly from teachers and educational professionals, we have developed 22 uniquely created books, each focusing on one of the core sounds which feature at this level. By focusing on one sound instead of bombarding new readers with everything at once you can allow your reader to learn and master the new sound before progressing. We are confident that this levelled approach to learning will build confidence in your new readers and develop their skills at a far greater pace and with a better level of understanding.

BookLife Non-Fiction Readers

FREE RESOURCES

BookLife's Non-Fiction Readers have arrived! Explore the world of non-fiction in fully decodable text and across a range of topics to suite all readers.

Our Non-Fiction Decodable Readers have been specifically created in line with the London Institute of Education's approach to book banding. They are phonetically decodable and ordered to support each phase of the Letters and Sounds document.

BookLife's Non-Fiction Decodable Readers serve the dual function of supporting the development of reading skills alongside feeding the natural curiosity of young minds with high-interest subjects.

BookLife Accessible Readers

An Introduction to Dyslexia-Friendly Readers...

Our 'really readable' Accessible Readers have been specifically created to support the reading development of young readers with learning differences, such as dyslexia.

Our aim is to share our love of books with children, providing the same learning and developmental opportunities to every child.

INCREASED FONT SIZE AND SPACING improves readability and ensures text feels much less crowded.

OFF-WHITE BACKGROUNDS ON MATTE PAPER improves text contrast and avoids dazzling readers.

Japanese Spider Crab

The Japanese spider crab is found in the Pacific Ocean around Japan. It spends most of its time deep under water. The Japanese spider crab is the largest crab we know of.

Japanese spider crabs eat plants and other animals. Japanese spider crabs are also scavengers. This means they sometimes eat animals that have already died.

SIMPLIFIED PAGE LAYOUT reduces distractions and aids concentration.

CAREFULLY CRAFTED along guidelines set out in the British Dyslexia Association's Dyslexia-Friendly Style Guide.

—“—
We love these Accessible Readers! They are bright and colourful with easy-to-read fonts on light yellow paper – perfect for our struggling and dyslexic readers. Thank you.

ABOUT BOOKLIFE GRAPHIC READERS

BookLife Graphic Readers are designed to encourage reluctant readers to take the next step in their reading adventure. These books are a perfect accompaniment to the BookLife Readers phonics scheme and are designed to be read by children who have a good grasp on reading but are reluctant to pick up a full-prose book. Graphic Readers combine graphic and prose storytelling in a way that aids comprehension and presents a more accessible reading experience for reluctant readers and lovers of comic books.
