

Numbers All Around Me

Before Reading	During Reading	After Reading
<p>Q1: We meet the main character on the cover. Numbers are all around the cute cat. What numbers do you see?</p> <p>A1: I see the big numbers 2, 6, 3, 1, 4, 5, 0, and 9. There are lots of little numbers too.</p> <p>Q2: Let's look at the title page. Ta-dal! The cat is opening the curtain. Why is the cat doing this?</p> <p>A2: Answers will vary: The cat is introducing (showing us) more numbers. The cat is showing us what the book will be about—numbers!</p>	<p>Q1: Where does the cat see numbers at school?</p> <p>A1: The cat sees numbers on his ruler, on a watch, on the number line, and chalkboard. The cat and his friend are using numbers to make a graph. The cat sees numbers on a calendar and a wall clock.</p> <p>Q2: When walking in the neighborhood, what numbers does the cat see?</p> <p>A2: The cat sees numbers everywhere! He sees numbers on the street sign, in the shops, on the pay phone, and on the mailbox. He sees lots of numbers at a restaurant—on the menus and on signs.</p>	<p>Q1: Let's look at page 16. Numbers, once again, surround the cat. Where are the numbers?</p> <p>A1: Numbers are on the computer and in a book. Numbers are on a scale, a calendar, a birthday card, a ruler, and a clock. There are numbers on the cat's shirt: See you later!</p> <p>Q2: Look around you. What numbers do you see?</p> <p>A2: Answers will vary: I see numbers on the calendar. I see numbers in my book.</p>

Numbers All Around Me

Everywhere I look, I can see

so many numbers all around me.
