Introduction

About the Build-a-Skill Instant Books Series

The *Build-a-Skill Instant Books* series features a variety of reproducible instant books that focus on important reading and math skills covered in the primary classroom. Each instant book is easy to make, and once children become familiar with the basic formats that appear throughout the series, they will be able to make new books with little help. Children will love the unique, manipulative quality of the books and will want to read them over and over again as they gain mastery of basic learning skills!

About the Build-a-Skill Instant Books: Color, Shape, and Number Words

This book features color, shape, and number words in fun and easy-to-make instant books. Children will develop fine motor skills and practice following directions as they cut, fold, and staple the reproducible pages together to make flip books, step books, mini books, and more! As children read and reread their instant books, they will strengthen their decoding skills and increase their sight word vocabulary.

Refer to the Table of Contents to help with lesson planning. Choose instant book activities that fit with the curriculum goals in your regular or ELL classroom. Use the instant books to practice skills or introduce new ones. Directions for making the instant books appear on pages 3 and 4. These should be copied and sent along with the book patterns when assigning a bookmaking activity as homework.
