Introduction

Each book in the *Power Practice*[™] series contains dozens of ready-to-use activity pages to provide students with skill practice. The fun activities can be used to supplement and enhance what you are already teaching in your classroom. Give an activity page to students as independent class work, or send the pages home as homework to reinforce skills taught in class.

The pages in *Timed Tests: Addition and Subtraction* provide students with opportunities to practice and memorize addition and subtraction facts. Challenge students to do their personal best by timing them as they complete each test and keeping track of those times. The tests are intended to be repeated by students until they have reached the desired accuracy and speed.

Have students write a goal time on each test. When they complete a test, have them write their actual time on their test. Encourage students to retake a test to try to better their time and accuracy. Give students record sheets (pages 4 and 63) to keep track of their own scores. An answer key is provided at the back of the book for quick reference.

For extra practice, have students complete the challenge pages. The addition and subtraction challenge pages include problems with missing addends or minuends.

Reward students for earning perfect scores, meeting their personal time goals, or for mastering all the addition and subtraction facts.

Use these motivating timed tests to “recharge” skill review and give students the power to succeed!
