

SPECIALTY MOTORS PERSONAL WATERCRAFT TEST TANK, HOIST & DOLLIES

Experience Pays Off!

PWC TEST TANK
Catalog No. PWC-TT-H

Built by Specialty Motors, this test tank has been designed and manufactured to meet all of your needs. Since 1952, Specialty Motors has been building quality test tanks geared for the Marine Industry. Similar to the models developed for "Outboard Engine" testing this PWC Test Tank was developed as an "easy to use" solution for personal watercraft testing needs. The tank is uniquely designed to submerge only the pump and a small portion of the hull. The majority of the hull stays clean and dry during testing. The bunks and tie-down points hold the personal watercraft securely to avoid jumping and bucking experienced by standard test tanks. The attached Hoist (included with Catalog No. PWC-TT-H) will lift the PWC from its trailer and rotate it around into the test tank with ease. The Hoist also serves as an easy way to lift any PWC for inspection or service.

36

How to lift a personal watercraft with just one hand!

The PWC Hoist Workstation is designed to lift personal watercraft in any environment with only one person. Whether you are lifting a PWC off your customer's trailer or from a PWC dolly, you can count on this Hoist/Workstation. This versatile piece of equipment lifts the PWC to a workable height and tilts the watercraft for easy engine compartment access and other servicing needs. This Hoist/Workstation takes the back pain out of PWC servicing!

Lifts up to 1000 Lbs.
