

Brooklyn AC

LED Task Lamp with Vacancy Sensor

User Guide

Read all instructions prior to using your new product.

ASSEMBLY INSTRUCTIONS

- Remove the protective plastic film from the base of the lamp to reveal the stabilizing pad.
- Clean the intended installation surface to remove dust or particulates. If bottom of lamp loses its stickiness, it can be cleaned with a damp cloth.
- An integrated tripod screw receiver is also included, for a more permanent installation.

USING YOUR LUX BROOKLYN AC WITH VACANCY SENSOR LED TASK LAMP:

- Turn the light on by touching the power button on the front of the lamp.
- Tap the power button again to cycle through the three brightness levels (600, 250, 20 lumens).
- The vacancy sensor will automatically turn the light off after 15 minutes of vacancy, saving energy. Touch the power button to turn the light back on when ready to use again.
- When using the lamp to charge your devices, unplug the devices once batteries are full.

SAFETY INFORMATION:

- The flexible external power supply cable cannot be replaced; if the cable is damaged the entire lamp must be replaced.
- For indoor use only; do not use outdoors or in damp locations.
- Switch the lamp off before disconnecting the power.
- Do not look directly at the LEDs when they are illuminated.
