

## Size Comparison Chart

“Resting Size” The approximate width measured across when the scrunchie is laying flat.

“Fully Stretched Size” The approximate width when the scrunchie is stretched fully apart.

Size	Resting Size		Fully Stretched Size		Recommended Uses
Small		2.5 inches wide		5 - 6 inches wide	-Great for kids! -Ideal for people with thin hair. -Often used on the ends of braids
Medium (Regular)		3 - 3.25 inches wide		7 - 8 inches wide	-Best selling scrunchie and most popular size! -Great for all hair types. -Can be wrapped once or twice for thinner hair. -Can be worn without wrapping for a looser fit.
Large		4 - 4.25 inches wide		9 - 10 inches wide	-Ideal for thick hair or people with lots of hair. -Great for people who want a little more size range and flexibility in using the scrunchie. -Most of our large scrunchies are made with a higher quality satin with less sheen and more fabric for a fluffier effect.
Extra Large		5.5 - 6 inches wide		13 - 14 inches wide	-Extremely huge! -Perfect for really thick hair, dreadlocks and braids.

**HELPFUL TIP:** To assess which size is right for you, try using a piece of string (like a shoe string), double it and measure it out to the stretch size of our scrunchies (listed above). Then tie the ends of the string to create a loop. The loop represents the maximum width the scrunchie can stretch. Now wrap the loop around your ponytail or bun to see if it can be wrapped around your hair once, twice or whatever you desire. Doing this can give you an idea of how our various sizes will work for you.
