## 10 INEXPENSIVE GROOMING PRODUCTS FOR MEN

Powerful skin and hair essentials that won't break the bank.

Most guys don't get out of the shower excited to moisturize and do their hair, but more and more of us are doing it anyway. We know that it's just as important to take care of what's on the outside as it is to train the muscles on the inside. Skin is the largest organ we have, after all. What's more, once it's damaged, it's next to impossible to get it back to its original state. That's why we all show signs of aging. But, simple products that require little commitment are available, and affordable, and can prevent or at least slow the aging process.

Here are 10 of the best guy's grooming products that fall well below splurge territory. Go ahead, pick up a few (or all!) of these bargain buys—you'll be thanking yourself for years to come.
