IODIN

Low Foaming Iodine Sanitizer

Free Rinsing • Prevents Hard Water Scale • High Acidity

Description

IODIN is a low foaming sanitizer for use in the food plant and restaurant industries. It is a unique, Iodine based, acidic sanitizer formulated specifically for circulation applications where very low foam levels are essential. IODIN may be used to sanitize equipment, glasses, dishes, refrigerators and may also be used on floors, walls, countertops and food storage areas.

Sizes: 4x4 litre; 20 litre; 20 litre; 210 litre

Product Features

- Highly effective sanitizer/cleaning agent
- Free rinsing for clear, streak-free surfaces
- Prevents alkaline residue
- Eliminates need for acid rinsing
- Controls bacteria and yeast
- Controls water hardness and prevents scale build-up
