

THE
BEATO BOOK 3.0

**A CREATIVE APPROACH TO MUSIC THEORY
AND IMPROVISATION
FOR GUITAR AND OTHER INSTRUMENTS**

BY RICK BEATO

THE BEATO BOOK

This book is dedicated to my Mom and Dad.

Special thanks to my wife Nina and our three beautiful children Dylan, Lennon and Layla; my brothers and sisters Pat, Nancy, Mike, Lou, Ray and Jon; and my teachers and friends Steve Brown, Mick Goodrick, Glen Cummings, Paul Smith, Pat Ryan, Tom Wadsworth, Keith Williams and Ken Lanyon.

A very special thanks to my dear friend and never-ending source of musical inspiration Aydin Esen.

Additional thanks to Christan Lamby, Michelle Taylor, Aaron Shah, Rhett Shull and Carol Kuswanto for making this book and my YouTube channel possible.

Cover design by Michael Murray

I would also like to thank all of you out there that have supported me through this journey!

Rick

Author's Note

I have spent many hours compiling this book in order to give my students a comprehensive reference source from which to draw. Since this book is not copy-protected it would be easy to make a photo copy of it for one of your friends. **Please don't.** I make a small living as a musician and am making even less from the sale of this book. I appeal to you as a fellow musician to respect the work of others, whether it's written material or recorded works. If one of your friends is interested in checking out the book, let them borrow it for a couple of days to get a feel for it. If they like it, encourage them to pick up a copy. When a book or recording is illegally copied, the publisher or record company has no way of monitoring interest in the project. This not only steals from the artist but may prevent them from having an opportunity to again express themselves in that medium. Good luck!
