

HOW TO COMBINE
HDT WITH **BDT**

HOW TO COMBINE HDT WITH BDT

Hemp-terps are great, but **they become insane** when you combine them with botanically-derived terpenes. We've put together a few of our favorite combos for you to try. Consider these as starting points to find your own favorite formula.

Example A:

Cloudburst Series + Hemp-Derived Terpenes

Combine HDT with our most flavorful botanically-derived terps, the Cloudburst Series. The hemp provides dank earthy base notes, while Cloudburst gives extreme fruity/dessert flavors.

Option A: Hemp-Dominant

Cart Example:

 93 % distillate

 6.3 % HDT

 0.7 % Cloudburst Series

A traditional earthy, herbal, hemp experience with an added fruity flair.

Option B: Fruity/Dessert-Dominant

Cart Example:

 93 % distillate

 1.4 % HDT

 5.6 % Cloudburst Series

In-your-face Cloudburst flavor with complex earthy herbal hemp notes.

Example B:

Native Series + Hemp-Derived Terpenes

HDT is plenty earthy, but it doesn't always contain the full gassy, skunkyness that you'd expect from CDT... but the Native Series does! Add dank cannasulfurs from the Native Series to oomph up the gas of your Hemp-Derived Terpenes.

Option A: Hemp-Dominant

Cart Example:

 93 % distillate

 6.3 % HDT

 0.7 % Native Series

Deep, earthy, herbal hemp with just a touch of the gas.

Option B: Dank-Dominant

Cart Example:

 93 % distillate

 0.4 % HDT

 6.6 % Native Series

Pure skunky gas with a mosaic of herbal, earthy, piney base notes.

Example C:

Native Series + Cloudburst Series + Hemp-Derived Terpenes

The trifecta (and our personal favorite). Use HDT as the "base" of the flavor. Then layer in the gassy cannasulfurs from the Native Series and finish it off with the extreme fruity/dessert flavors of the Cloudburst Series. This is as complex as it gets.

Option A: Hemp-Dominant

Cart Example:

 93 % distillate

 5.6 % HDT

 0.7 % Cloudburst Series

 0.7 % Native Series

Option B: Dank-Dominant

Cart Example:

 93 % distillate

 0.7 % HDT

 0.7 % Cloudburst Series

 5.6 % Native Series

Option C: Fruity/Dessert-Dominant

Cart Example:

 93 % distillate

 0.7 % HDT

 4.9 % Cloudburst Series

 1.4 % Native Series
