#### NATURAL VS. ARTIFICIAL

NATURAL

ARTIFICIAL

>95% Natural terpenes

<5% Natural flavor

## Product Data Sheet

### All Natural GSC

#### Description:

Don't be fooled by the name, this strain is not to be taken lightly. Unlike the kind little kiddies who show up on your doorstep selling thin mints, samoas, and those delightful peanut butter biscuits, Girl Scout Cookies is a true killer. This is the diabolical descendent of two heavy-hitters so magnificent that our lawyers recommended we avoid naming them. Essentially, the only option is to try out GSC. Then, it can put you on your back, flailing limply like an upended turtle. This blend effectively eliminates bumner, stress, and the ability to function normally in social situations. Please use in moderation if you're headed into

Appearance	Colorless to yellow clear liquid
Aroma	Sweet, Earthy, Floral
Flavor	Sweet, Earthy, Floral
Density	0.85-0.90

## Storage:

Store flavor in airtight, sealed containers at ambient temperature (<22°C/72°F) and <60% relative humidity. Avoid exposure to light, air and high heat. Once containers have been opened, maintaining minimal headspace and storing under appropriate conditions will aid in preserving the product's integrity.

## Shelf Life:

Typical shelf life is 1 year from date of manufacture when stored in original container and under recommended storage conditions.

## Food Ingredient Declaration For Customers<sup>1</sup>

Natural Flavor (FDA)

This flavor contains ingredient(s) which are approved for use in a regulation of the Food and Drug Administration (FDA) and/or are listed as Generally Recognized as Safe (GRAS) on a reliable, published industry association list pursuant to 21CFR101.22.

## Nutritional Contribution:

The nutritional content of flavor additives does not contribute to the nutritional value of foods, due to the extremely low use level. Therefore, pursuant to 21CFR 101.9 (i) (4), flavors are exempt from nutritional labeling. Nutritional data is available upon request.

## Regulatory Status:

Flavor	
USA Regulated Allergens <sup>2</sup>	
International Regulated Allergens <sup>3</sup>	
Country of Manufacture	USA
Other	Contains Myrcene

1. USA labeling recommendations are pursuant to 21CFR 101.22 (k) (2). Label declaration requirements vary significantly in different countries. These label declarations should not be used or adopted without confirming that the declaration is appropriate and legal for the subject country and intended application.

2. Crustacean, Egg, Fish, Milk, Peanut, Shellfish, Soybean, Tree Nut, Wheat are allergens recognized by the USA Food and Drug Administration Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA). FALCPA does not regulate sulfites as allergens. However, sulfites are considered a sensitizing chemical in the USA and will be identified when present at >10 ppm.
