# ABOUT

Swell Obsessed Swimwear is a whimsical, contemporary women's swimwear line, centered in imagination, sustainability, and versatility. Anything but basic, SOS's trademark seamless designs are multi-functional and versatile. Most pieces are transitional both in and out of the water & from day to night.

Inspired by adventure, self-love, nature, beauty, magic, and freedom, we encourage women to daydream, create, take chances, risk it all and start looking at their life in a different way.

The SOS Woman has been forged by her experiences and doesn't regret her past nor does she wish to shut the door on it. She is a wild child at heart with an insatiable appetite for life.

Comfort driven but never shy on style, SOS pieces have become the favorite for women who crave quality, smart design, and a dreamy overtone. Less time fussing and more time living is at the core of our design intention. A variety of styles and cuts are offered to include, rather than exclude, staying true to our motto- let YOU shine through.

xo,  
Naiana

# EARTHLING DELIGHTS

## ONE WITH NATURE.

A collection of products we've concocted with natural fibers to start conversations, set trends, and continue to move the fashion needle towards a better planet.

Little things can make a big difference.

Small details can start meaningful conversations, spark ideas to explore alternatives, and help shift our perspective on methodologies we should be questioning.

We're not perfect- nobody is.

But it's a start.

You gotta start somewhere, Siren.

# Our design philosophy:

Less is more. We keep it simple and stick to trustworthy solids. We focus on versatility and wearability to offer minimal design with maximum impact. You wear your suit, Siren. Your suit shouldn't wear you.

# BARELY THERE

like your birthday suit, but better.
