HOLIDAY 2019/20

"happily ever after"

The perfect marriage between masculine & feminine are this season's "match made in heaven." Ever the daydreamer and romantic, the SOS woman has revisited childhood memories of her favorite fairytale à la "little mermaid". Long, flowing, luminous fabrics strike the perfect balance for more structured, bold colored pieces. Details of bows, elizabethan ruffles, epaulettes, & chinese buttons transport us to a whimsical, old world nostalgia, helping us feel "dressed up" for this time of year. These pieces transition effortlessly between a tropical holiday getaway and the glitziest New Year's Eve Ball. We've made separates to feel festive in- be it in NYC or St. Barths. A wardrobe for the modern mermaid- a girl who dreams, travels, and knows herself. We've gone overboard, in the best of ways.
