

SWELL OBSESSED SWIMWEAR

Spring/Summer 2019

“Life itself is the most wonderful fairytale.”

- HANS CHRISTIAN ANDERSEN

Swell Obsessed Swimwear is a whimsical, contemporary women's swimwear line, centered in imagination and versatility. Anything but basic, SOS's trademark seamless designs are multi-functional and versatile. These pieces are transitional both in and out of the water & from day to night.

Inspired by adventure, love, warmth, beauty, magic, and freedom, we encourage women to daydream, create, take chances, risk it all and start looking at their life in a different way.

The SOS Woman has been forged by her experiences and doesn't regret her past nor does she wish to shut the door on it. She is a wild child at heart with an insatiable appetite for life.

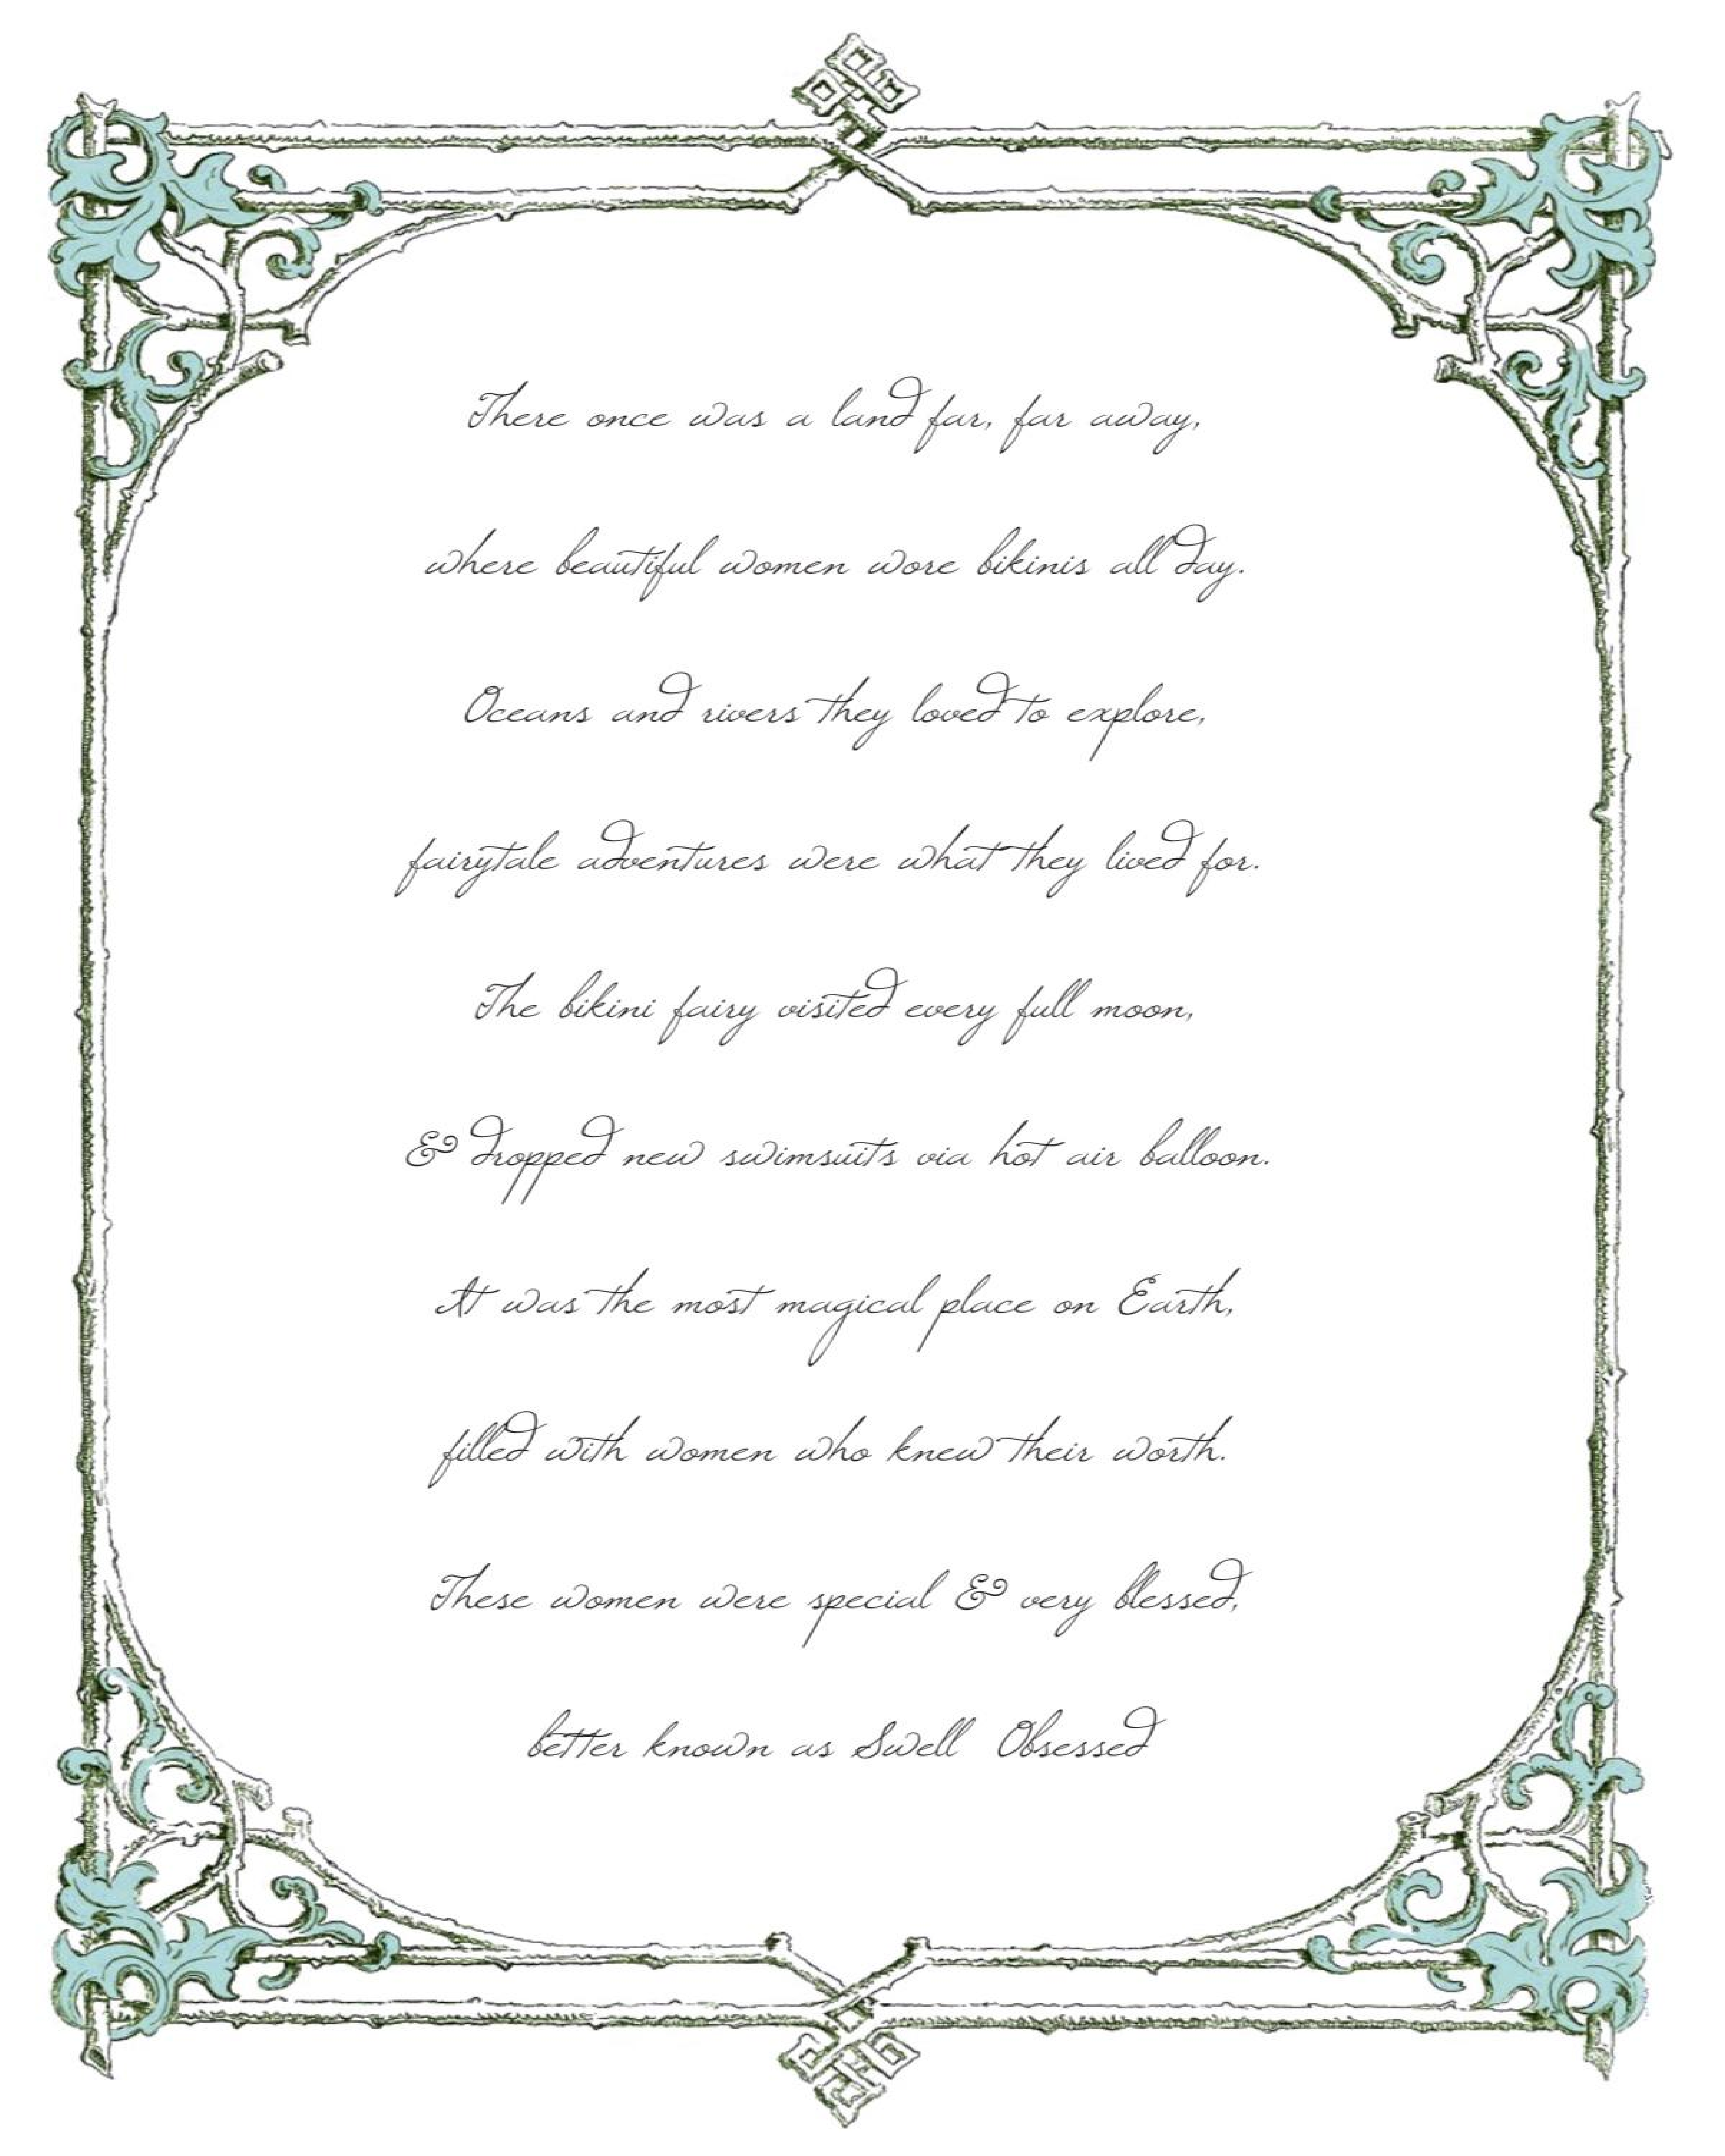

Comfort driven but never shy on style, SOS pieces have become the favorite for women who crave quality, smart design, and a dreamy overtone. Less time fussing and more time enjoying is at the core of our design intention. Universally flattering styles, include, rather than exclude, staying true to our motto- love your swimsuit, love yourself!

*There once was a land far, far away,
where beautiful women wore bikinis all day.
Oceans and rivers they loved to explore,
fairytale adventures were what they lived for.*

*The bikini fairy visited every full moon,
& dropped new swimsuits via hot air balloon.*

*It was the most magical place on Earth,
filled with women who knew their worth.*

These women were special & very blessed,

better known as Swell Obsessed
