**MK-20 Titan Direct Target Specific Gel:** This unit is an excellent solution for Individual Subject Control in all situations where cross contamination or migration is a major concern. Dual-purposed for both indoor and outdoor environments, the **MK-20 Gel** is ideal for crowd management, inmate/subject transportation be it by bus, train, or airplane, and high traffic building security check points. Recommended carry is a thigh holster or tactical vest for quick deployment.

#### Accessories

**Drop-Leg MK-20 Holster:** With the drop-leg holster, the MK-20 unit can be tightly secured and worn along the outer thigh for easy tactical transitions. **Stock No: WEB20-DL**

**Formulation:** Oleoresin Capsicum (OC) combined with a **Non-Flammable carrier**. Guardian Protective Devices™ sprays are safe for use with Electro Muscular Disruption (EMD) technology, such as Taser™. UV dye added for easy identification, putting the subject at the scene of incidence.

OC + CS blends are available, custom blends upon request to meet your department requirements.

**Safety:** The pistol grip uses a state of the art pull pin which secures the trigger, to prevent accidental discharge. The contour on the pistol grip allows for a steady comfortable grip allowing target acquisition.

**Labeling:** All canister labels are wearing water-resistant and contain the following data:

- Individualized Serial Numbers
- Active Ingredient
- Date of Manufacture
- Date of Expiration
- Lot / Batch Number
- Stock Number
- Decontamination Instructions

**Packaging:** Department of Transportation (DOT) approved commercial packaging.

MAC 7 and Inert Products work with personnel within various areas of conflict to bring forth the most up to date and complete training packages available today. Backed by Inert Products' vast training aid inventory, there is no other course offered today with comparable benefits.
