**MK-3 Ballistic Stream:** The MK-3 unit combined with the Ballistic Stream delivery system gives its user an easy to carry and accurate less-than-lethal option. It is perfect for prisoner cell extractions, controlling small crowds, pre-entry, and area denial situations. You can feel comfortable either engaging multiple targets or picking out individuals; the **MK-3 Ballistic Stream** gives its user the tactical edge. From Security guards to the country's top law enforcement officers, the **MK-3** has proven itself to be a valuable less-than-lethal option.

<b>Scoville Heat Units (SHU)</b>	500,000	2,000,000		Zero

**Formulation:** Oleoresin Capsicum (OC) combined with a **Non-Flammable carrier**. Guardian Protective Devices™ sprays are safe for use with Electro Muscular Disruption (EMD) technology, such as Taser™. UV dye added for easy identification, putting the subject at the scene of incidence.

OC + CS blends are available, custom blends upon request to meet your department requirements.

**Safety:** The Flip-Top has a protective, spring-loaded, plastic safety cover. The integrated safety cover prevents accidental discharge and conveniently moves out of the way for unobstructed access to the actuator when used.

**Labeling:** All canister labels are wearing water-resistant and contain the following data:

- Individualized Serial Numbers
- Active Ingredient
- Date of Manufacture
- Date of Expiration
- Lot / Batch Number
- Stock Number
- Decontamination Instructions

**Packaging:** Department of Transportation (DOT) approved commercial packaging.

MAC 7 and Inert Products work with personnel within various areas of conflict to bring forth the most up to date and complete training packages available today. Backed by Inert Products' vast training aid inventory, there is no other course offered today with comparable benefits.
