MK-4 Vapor: This unit sets the standard when it comes to everyday duty. The **MK-4** carries a respectable capacity while at the same time fits comfortable on any duty belt. The **MK-4** combined with the Vapor Delivery system gives its operator a wider dispersal pattern to combat against civil disturbances, crowd control situations, pre-entry, and area denial.

Delivery	High Intensity, Super Fine Mist	
Effective Range	Up to 15ft (affects larger area after deployment)	
Formulation Weight	2.5oz/72 grams	
Stock Number	FT03EV	FT04EV
Strength	Level III 10%	Inert
T.C. (New) ASTA 21.3 *	1.25%	None
T.C. (Old) ASTA 21.1	1.33%	None
Scoville Heat Units (SHU)	2,000,000	Zero

Formulation: Oleoresin Capsicum (OC) combined with a **Non-Flammable carrier**. Guardian Protective Devices™ sprays are safe for use with Electro Muscular Disruption (EMD) technology, such as Taser™. UV dye added for easy identification, putting the subject at the scene of incidence.

OC + CS blends are available, custom blends upon request to meet your department requirements.

Safety: The Flip-Top has a protective, spring-loaded, plastic safety cover. The integrated safety cover prevents accidental discharge and conveniently moves out of the way for unobstructed access to the actuator when used.

Labeling: All canister labels are wearing water-resistant and contain the following data:

- Individualized Serial Numbers
- Active Ingredient
- Date of Manufacture
- Date of Expiration
- Lot / Batch Number
- Stock Number
- Decontamination Instructions

Packaging: Department of Transportation (DOT) approved commercial packaging.

MAC 7 and Inert Products work with personnel within various areas of conflict to bring forth the most up to date and complete training packages available today. Backed by Inert Products' vast training aid inventory, there is no other course offered today with comparable benefits.
