

BOREALIS

Paravento con struttura in alluminio verniciato finitura pewter 5L composto da fasce in pelle bicolore piegate ad asola e cucite insieme a mano.

Le fasce sono disponibili in due combinazioni:

- Pelle su entrambi i lati, anche di colori diversi, esclusivamente appartenenti alla categoria pelle
- Pelle plus su un lato, pelle anilina nubuck sull'altro e sulle fasce verticali.

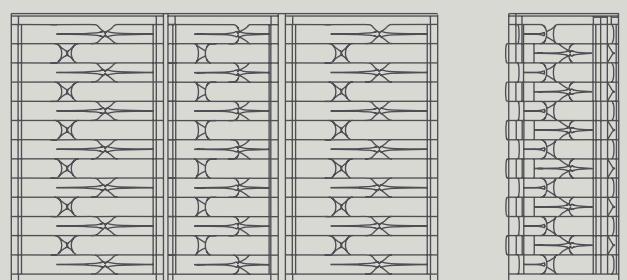

Le composizioni sono disponibili in due altezze. Il paravento è composto da tre ante rotanti dotate di meccanismi di blocco che ne impediscono sia la totale chiusura che la totale apertura per mantenere la stabilità.

Screen with pewter-finish painted aluminium frame made of two-colour leather bands folded into loops and sewn together by hand.

The bands are available in two combinations:

- Leather on both sides, also in different colours, exclusively from the pelle category
- Pelle plus leather on one side, anilina nubuck leather on the other one and on the vertical bands.

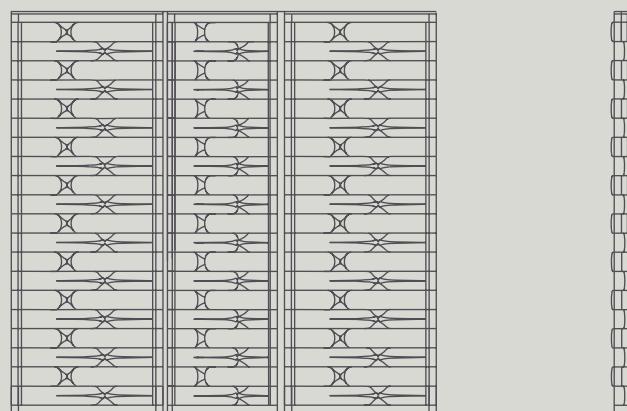

The compositions are available in two heights. The screen is composed of three rotating doors equipped with locking mechanisms that prevent them from closing or opening completely to maintain stability.
