Note:

* 280 cm length of the top: please check availability beforehand.

Description:

Black steel is black, scale-covered, crude steel - as used in the construction sector. As the surface is not ground, the beams show the typical signs of wear and tear like scratches, scrapes, dents, stains and signs of corrosion etc.
For the outdoor version, the surfaces are treated with anti-corrosion protection and are black-grey powder-coated. This makes the pedestal weatherproof. Please kindly consider these material-related conditions.
