

CONCH

design **Decoma Design**
2008

Decoma Design firma per Porro un progetto di poltroncina a pozzetto con scocca in tessuto sfoderabile, pelle o ecopelle e disponibile con base girevole cromata o gambe in tubolare metallico cromato, bianco o nero. Dalla sala da pranzo all'ufficio, Conch si caratterizza per la sua forma ovale accogliente, la morbidezza del suo rivestimento e il suo disegno solcato da un foro centrale, di grande eleganza.

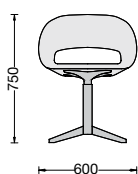

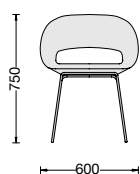

Porro presents a "cockpit" armchair, designed by Decoma Design, with removable fabric, leather or eco-leather body and available on a chromed rotating base or on a chromed, white or black metal fixed structure. From the dining room to the office, Conch is characterised by its pleasant oval form, the softness of its covers and its design with an elegant central groove.
