

MICROMEGA

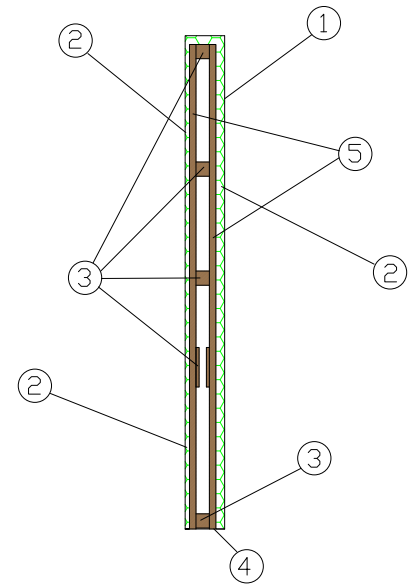

Micromega focuses on man and his needs to meet and socialize in defined, comfortable and aesthetically pleasing spaces; hence the reason why we symbolically borrowed the circular and square shapes of Leonardo's Vitruvian scheme. Micromega is a micro-architecture intended for mega public spaces, such as hotel lobbies, and allows you to create endless and stunning combinations. Micromega is a modular upholstered seating system for commercial environments, but with small modules that can be used even in contemporary domestic space.

MICROMEGA SEATINGS:
