

# ORSON 002 Director lounge chair

design GORDON GUILLAUMIER

460 Harrison Ave Boston MA 02118 | T617-654-2974 | casadesigngroup.com

## DESCRIPTION

Director lounge chair for outdoor use.

## STRUCTURE

**TEAK:** Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

## BATYLINE

Technical fabric made of a PVC-coated polyester wire grid bearing membrane. This material combines excellent technical performance with a high aesthetic value. The special textile construction makes it very resistant to weathering and ensures quick drying.

## WEIGHT

8 kg
