

Cafè (indoor - outdoor)

design Piero Lissoni

Small armchair available for indoor and outdoor.

Indoor: tubular steel frame with chrome finish or AISI 316 stainless steel with matt satin-finish. Seat chassis in lacquered steel with padding in differentiated density polyurethane foam, for chromed version; self-supporting decorative HPL plastic laminate panel for AISI 316 stainless steel version. Fabric or leather upholstery, both fully removable by zippers, after unscrewing the seat chassis from the frame (chrome version). Woven with coach-hide, hempen rope or PVC profile in the colours of our collection. Seat cushion with preformed, differentiated density polyurethane foam structure, coated with acrylic fibre layers, backrest cushion in prewashed and sterilized goose down, stitched into separate compartments; in the *Cafè Light* version, backrest cushion always in differentiated density polyurethane foam structure, coated with acrylic fibre layers.

Outdoor: frame in AISI 316 stainless steel with matt satin-finish. Seat in self-supporting decorative HPL plastic laminate panel. Woven with PVC profile, in the colours of our collection. Seat and back cushions padded with open cell structure polyurethane foam FILTREN®T covered with fibre for outdoor and upholstery with outdoor fabrics only, fully removable by zippers. Seat depth 45cm.
