

Dock

design : F. Rota

Rectangular dining table.

Structure: stainless steel AISI 316, matt-varnished in avorio or grafite colour or gloss-varnished (reference colours: Mano Lucida wood sample collection), adjustable feet in stainless steel and rubber.

Top: composed of elements in different width, made of heat-treated ash heartwood Aurea Optima or in natural lava finished Glacé.

Notes:

The elements in heat-treated ash heartwood Aurea Optima are treated to be oil and water repellent with a water-based finish that limits the absorption of liquids and greasy substances.

Glacé is a result of an artisanal process that makes natural lava stone particularly bright.

The outer side of the top elements, corresponding to the perimeter of the table, are flared and positioned so as to be slightly spaced from each other.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
