

# Geranium LED Wallpaper

The Germanium Chandelier is one of our best-loved designs. The delicacy and airiness of its floral composition inspire both peacefulness and excitement to the eye. The painted-effect background adds a great feel of texture and luxury.

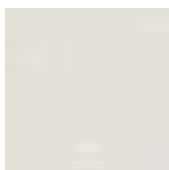

Tip! Tip! Use spotlights to make the crystals shine. If your wall is shorter than 3m you can play around with the height of arrangements 1&2 to make your own custom layout (you can trim both the top and the bottom of the roll).
