

DESCRIPTION

Light and airy, the Nodi chair's silhouette is characterized by twisted-interlaced rope in weather resistant Canax®, stretched across a precise geometric wireframe. Pared back, refined proportions and a minimalist approach to materiality lend a casual lightness to the collection. The slim profile of the arm is angled slightly inward in a welcoming gesture. The open weaving in Canax®, a combination of PVC and natural hemp, crosses in vertical and horizontal lines, providing shape and structure to the seat and back. Strong and durable, the rope work is also gently forgiving, adding to the ease and comfort of each chair.

MATERIALS

- Frame: 304 stainless steel, powdercoated with a durable polyester coating
- Seat & backrest: Canax®, the core is made of polyester, the outside is a mix of pvc and hemp fibres

CUSHIONS

Filling in dryfoam which has an open cell structure, so air can circulate freely. Water passes through the filling, but dries quickly thanks to the large open pores, substantially inhibiting fungal growth. Fabrics available in category D, E & F.

NODI

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Nevertheless, they are not 100% waterproof. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

MAINTENANCE

Frame

Clean the aluminium frame with tap water and a PH neutral soap. For stubborn stains, use Aluminium Cleaner. We advise to use Teflon® Protector twice a year which applies an invisible film and protects the aluminium against the adhesion of dirt.

Teflon® Protector
(spray that lays an invisible dirt-repellent film)

Back & seat

Canax® requires hardly any maintenance and is easy to clean with clear water and a PH neutral soap. Stubborn stains and persistent green deposit can be removed with Synthetics Super Cleaner. We recommend to treat the Canax® weave with Synthetics Protector which applies an invisible dirt and water repellent film.
