

Nordic Waterfall LED Wallpaper Meystyle

The Nordic Waterfall design is a majestic stand-alone feature. The sublime force of nature encounters the rationality of human thinking. The result is an uncanny fascination, a contemporary beauty.

Like flames of a candle, the LEDs turn this feature pattern into a real chandelier taking your wall into another dimension. When used as the only light 13 LEDs provide very subtle ambient lighting around the wall in full darkness. Tip! Use spotlights to make the crystals shine.
