METEO marks the beginning of a new collaboration between Kettal and Konstantin Grcic. It aims to explore the largely untapped design potential of modern parasols. Protection from direct sunlight is becoming a quintessential condition for our health and wellbeing. The increasing impact of parasols and other sunshade systems on the planning and furnishing of modern cityscapes, recreational resorts and private dwellings gives rise to the challenge of a renewed approach to this specialized product category.

Maintenance

Clean with mild soap using
sponge or cloth. Be gentle
while cleaning, do not scrub
aggressively the fabric. Once
cleaned please make sure you
remove soap excess.

In case of aggressive stains
clean with diluted household
bleach.

Clean stains promptly. The
longer it remains, more difficult
will be to remove.

Once cleaned the fabric steam
iron the fabric. Just use steam,
be carefull NOT placing the
iron directly in the fabric it will
get damage.
