

DESCRIPTION

Pure Sofa reduces design to the essence, devoid of all excess: pure simplicity and elegance. This modular outdoor sofa consists of five elements that combine easily into the lounge set of your liking. The sofa is made of high-quality teak from Indonesian plantations. The cushions are available in 2 different designs and numerous luxury outdoor fabrics.

MATERIALS

- Frame: A-grade plantation teak from East-Java, every log is handpicked during the cutting process of the tree
- Hardware: 316 electropolished stainless steel

CUSHIONS

Available in 2 designs.

Miami cushions

A sleek design with back cushions in a straight shape. The filling is made of water-permeable dryfoam which has an open cell structure so air can circulate freely. Water passes through the filling but dries quickly thanks to the large pores, inhibiting fungal growth.

Casual cushions

A more fluffy design with a softer seating comfort. Lumbar cushions and armrest(s) included. The filling has a cover in laminated, water-repellent polypropylene which prevents water from penetrating. The thread used to stitch the seams swells when getting wet, preventing water from penetrating through the seams. Moreover, the seams are protected on the inside with an extra covering. If nevertheless water should penetrate, the filling is breathable which prevents moulding.

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Nevertheless, they are not 100% waterproof. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

MAINTENANCE

Treat new teak with Teak Protector 4 à 6 weeks after installation. Teak Protector applies an invisible film that prevents stains and green deposit. Soiled teak can be cleaned with Teak Super Cleaner. Leave the furniture to dry completely and then apply Teak Protector. To avoid labour-intensive cleaning, you can treat the wood with Teak Sealer. A simple cleaning with water and a ph-neutral soap will do for many years. Teak Sealer contains UV protection to slow down the graying from the sun as well as a fungicide to prevent the growth of mold and mildew.
