I PICCOLI SPAZI NON SONO
UN LIMITE O IL RIPIEGO AD
UNA NECESSITÀ MA, COME
DEI NIDI, CI ACCOLGONO
E COCCOLANO NELLA LORO
PREZIOSA INTIMITÀ.

Small spaces are not a limit
to the necessity but, like
nests, they welcome us
in their precious intimacy.

Les petits espaces ne se limitent
pas à la nécessité mais, comme
les nids, ils nous accueillent
dans leur précieuse intimité.

Kleine Räume sind nicht auf
die Notwendigkeit beschränkt,
sondern empfangen uns wie
Nester in ihrer kostbaren Intimität.

Los espacios pequeños no se
limitan a la necesidad sino que,
como los nidos, nos acogen
en su preciosa intimidad.

*con trattamento Acid Shield.
Acid Shield è il rivoluzionario trattamento protettivo per marmi e pietre contro agenti acidi, coloranti e grassi. Forma un vero e proprio scudo invisibile satinato al tatto e, senza alterare le qualità cromatiche naturali dei materiali, protegge da macchie, aloni, rigature e perdite di tonalità e brillantezza. Il trattamento è frutto della ricerca del nostro partner ed è applicato dall'azienda presso i propri laboratori non solo su lastre e altri oggetti piani, ma anche su manufatti tridimensionali, torniti o scavati. Acid Shield è certificato dal Laboratorio del marmo di Verona in base alla norma UNI EN 12720 (Valutazione della resistenza delle superfici ai liquidi freddi, prodotti di pulizia e agenti macchianti) e consente di superare tutte le problematiche di manutenzione e pulizia dei materiali lapidei naturali.

*with Acid Shield protection.
Acid Shield is a revolutionary treatment for marbles and stones conceived against acids, colorants and grease. It creates an invisible satin-like shield without altering its natural chromatic aspect and protects it from stains, etches and loss of brilliance and colors. This treatment has been developed internally by our partner and is applied by the firm on marble slabs and surfaces, but also on 3D-shaped or carved objects. Acid Shield is certified by the Marmo di Verona Laboratory in compliance with UNI EN 12720 regulation (Assessment of surface resistance to cold liquids).
