

RS#3 wood

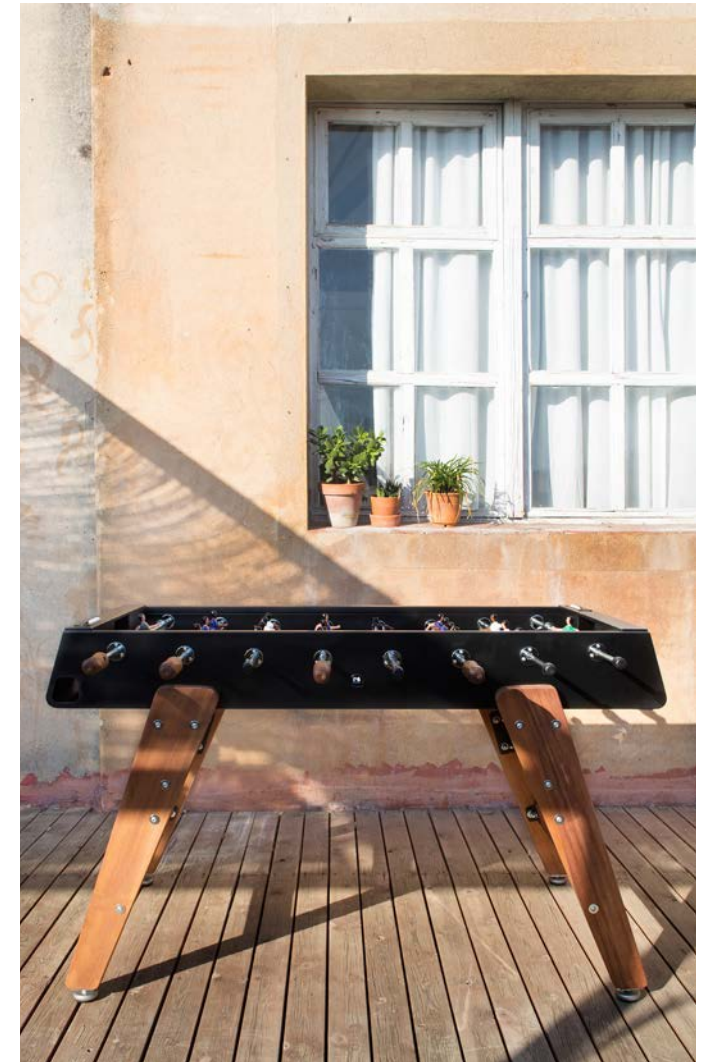

by RAFAEL RODRÍGUEZ

For the first time ever, RS Barcelona is using wood in their football tables. And for that they have chosen iroko, a strong and durable wood for outdoor use, the basic requirements for joining the RS# foosball team.

The RS#3 wood is designed and made for outdoor living. It shares some features with the RS#3 (same body and playing field) but its legs are in wood.

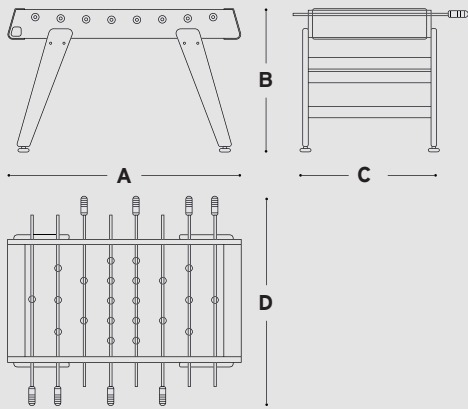

RS#3 wood comes in inox version (stainless steel), white or black (steel with cataphoretic coating process) and each version comes with its standard teams.

“The RS#3 wood is the wooden legs one.”

RS#3 wood

Dimensions:
