Livingston

Design Giuseppe Viganò

Anno di produzione 2009

Year of production 2009

[It] — Livingston gioca sull'effetto sorpresa tramite un uso inaspettato del poggiatesta che, con un semplice gesto di rotazione, diventa un comodo poggiatesta. È dotato di uno schienale "intelligente" accoppiato a un cuscino più piccolo tramite semplici cerniere. La seduta, soffice e informale, dialoga con una struttura aerea in acciaio che dà slancio alla generosità delle cuscinate. La particolarità dello schienale regolabile e la caratteristica del cuscino unico di seduta conferiscono al divano Livingston un profilo unico e originale, declinabile in infinite composizioni.

Struttura

In acciaio verniciato nero; molleggio assicurato da cinghie elastiche con anima in polipropilene; braccioli in acciaio imbottiti con poliuretano espanso (75IP e 30P) e rivestiti con vellutino bianco accoppiato a poliuretano espanso; schienale in legno multistrato rivestito con velfodera accoppiata a poliestere pressato 300gr/mq.

Piedini

In acciaio con specifica sagomatura, finitura cromo lucido.

Imbottitura

I cuscini dello schienale e dei braccioli sono imbottiti in piuma d'oca lavata e sterilizzata suddivisa in scomparti e rivestita con tessuto di cotone bianco 100%. I cuscini della seduta sono realizzati con anima in poliuretano espanso 40IM e memory foam, rivestita con velfodera accoppiata a fibra di poliestere pressata 280gr/mq. La piuma dei cuscini schiena è mista a fibra di poliestere.

[En] — Livingston brings the element of surprise into play, with an unexpected use of the headrest which, with a simple twist, becomes a comfortable lumbar support.

It has a "smart" backrest, fastened to a smaller cushion using simple zips. The soft, informal seating rests on a light steel base that creates a dynamic contrast with the generous cushions. The original, adjustable backrest and its characteristic full-length seat cushions give Livingston a unique silhouette ideally suited to creating an endless variety of arrangements.

Structure

In black painted steel; the seat is sprung with elastic straps reinforced with polypropylene; the steel armrests are padded with polyurethane foam (75IP and 30P) and covered in white velveteen backed with polyurethane foam; the back is in multi-layered wood, covered in velfodera backed with pressed polyester 300gr/sqm.

Feet

In specially shaped steel, glossy chrome finish.

Padding

The backrest and armrest cushions are padded with washed and sterilized goose down, divided into sections and covered in white 100% cotton fabric. Seat cushions are made with polyurethane foam core 40IM and memory foam, covered with velfodera on a polyester fiber 280gr/sqm.

Back cushions' feather is mixed with polyester fiber.
