

Snow LED Wallpaper

Meystyle

Soft natural shapes on a sophisticated color pallet add a little layer of intricacy to the modern minimal feel. The LEDs on this design are really worth keeping on all day and all night. The light looks very subtle during the daytime giving depth to the pattern and forms an elegant geometric pattern after the sun goes down.

When used as the only light the 14- 23 LEDs provide very subtle ambient lighting around the wall in full darkness. 45 LEDs will allow you to move around an average-sized room comfortably without the need for another light source. Please note that LEDs give dispersed light not suitable for tasks that require precise visual attention such as reading.
